

# Prince RD300 Flow Divider RD-308-8

Dalton Hydraulic · Flow Divider · Available for online purchase

## Product summary

RD-308-8 The Prince model RD-300 valve is a pressure compensated proportional flow divider. The standard models of this valve will take one inlet flow and split it into two nearly equal outlet flows. Because the valve is pressure compensated the valve will maintain the divider ratio with quite different loads on the outlet ports as long as the inlet flow is within the specified range for that valve . Also features free reverse checks which allows the reverse flow of oil from the outlet ports to the inlet port. 4-8 GPM #8 SAE 3000 PSI

## Specification overview

### BRAND

Dalton Hydraulic

### PRODUCT TYPE

Flow Divider

### AVAILABILITY

Available for online purchase

### COLLECTIONS

Prince Hydraulics

### STARTING PRICE

395.0 USD
